## Property, Plant and Equipment

### As of December 31, 2023

#### Capital Assets

In connection with the establishment of the public benefit corporation in 1997, WCHCC recorded buildings, fixed equipment, and land received from the County at book value. Capital assets acquired subsequent to the establishment of the public benefit corporation are recorded at cost. Assets with a purchase price of \$1,000 or more that have an economic life greater than one year are capitalized and assets with a purchase price of less than \$1,000 are expensed.

Gifts of long-lived assets such as land, buildings, and equipment are recorded at fair value at the date of the contribution and are excluded from operating income.

Depreciation is recorded using the straight-line method over the estimated useful life of each class of depreciable assets.

	<u>Useful Lives</u>
Land improvements	10 years
Buildings and building improvements	5 to 60 years
Equipment	10 to 20 years

Equipment obtained through financed purchases are amortized using the straight-line method over the shorter period of the lease term or the estimated useful life of the leased equipment. Such amortization is included in depreciation and amortization expense in the financial statements.
